Arts Drama

YEAR 7 SKILLS

- Knowledge of and practice using the elements of drama
- Self-confidence and positive teamwork
- Character analysis and scriptwriting
- A sense of curiosity and creative problem solving

Our introductory course in Drama has been developed to give students the opportunity to explore the process of character analysis and creation. Learning how to express character through their movements, vocal choices and relationships to the world and characters around them. They are given the opportunity to express their own unique points of view, while sharing and learning about other perspectives. Through Drama students also have the chance to learn how to think, move and speak with confidence. This is achieved through play, performance, collaboration and the process of making and staging their own dramas.
