Technology

Design and Technology

SUBJECTS

Robotics & Mechatronics (T, A)
Digital Technology (T, A)
Designed Environments (T, A)
Design & Emerging Technologies (A, T)
Metal Products (A)
Furniture Making (A)
Construction Pathways (VET, A)

Do you enjoy being creative or innovative in design for the future? The Design and Technology faculty offer a range of courses at the Accredited and Tertiary levels. In addition, the Construction Pathways course is accredited as a VET course for Years 10, 11 and 12 (Certificate II). Students have access to wood and metal workshops, Construction Shed, Maker space with 3D printers, art rooms, Media/Photography Lab and studio, with digital cameras and printer technologies. Students also have daily access to ICT labs, and software such as the Adobe Creative Cloud. Students' work is proudly showcased throughout the year in our gallery and front foyer.
